PROFESSIONAL SUMMARY

Results-driven Data Analyst and ML Engineer with 3+ years of professional experience building predictive models, orchestrating data pipelines, and delivering full-stack software solutions across real estate and technology sectors. Skilled in Python, machine learning, NLP, and computer vision. Consistent track record of shipping client-ready products on time with measurable business impact. Microsoft Azure AI certified (AI-900). Open to remote freelance and full-time opportunities worldwide.

WORK EXPERIENCE

Data Analyst / IT Engineer

Unicorn Realtors • Lahore, Pakistan • Jan 2025 – Present

- Architected ML-powered property pricing and market forecasting models (Python, Scikit-learn, XGBoost), cutting manual estimation time by ~40% and improving accuracy across 500+ active listings.
- Orchestrated ETL pipelines for weekly data extraction, cleaning, and transformation — slashing report prep from 4 hours to under 30 minutes and recovering 14+ analyst hours per month.
- Developed interactive Excel and Python dashboards tracking 10+ portfolio KPIs, directly informing senior management pricing and investment strategy; maintained 99%+ uptime across 15+ workstations.

Software Engineer

Techsynx • Lahore, Pakistan • 2023 – 2025

- Engineered 25+ production websites and web applications for international clients (React, WordPress, WooCommerce, JavaScript) — delivering 100% of projects on time and within agreed scope.
- Elevated Google PageSpeed scores from avg 52 to 88+ through code splitting, lazy loading, and caching — directly improving client conversion rates across all projects.
- Executed technical SEO across 12+ projects achieving organic ranking gains in 60–90 days; slashed QA revision cycles by 35% through pixel-perfect Figma-to-code component architecture.

Front-End Developer

Housecodies • Lahore, Pakistan • 2022 – 2023

- Shipped 10+ responsive cross-browser UIs (HTML, CSS, JS, Tailwind, Bootstrap) — reducing page load time by 25–30%; achieved 80% first-review client approval rate across all deliverables.
- Collaborated in agile sprints with designers and backend engineers, maintaining zero critical production bugs and on-time delivery across every project in a 12-month period.

KEY PROJECTS

Bank Churn Prediction API:	XGBoost at 91% accuracy; containerised REST API with live stakeholder dashboard — complete MLOps pipeline from training to production.
Fraud AI — AI Text Detector:	NLP transformer identifying AI-generated content at 89%+ accuracy; deployed as a real-time public API for editors and educators.
EXP-AI — YouTube Summariser:	Whisper + Hugging Face pipeline cutting video review time by 70%; clean UI for non-technical end users with instant structured output.
WA/TG Bots & Voice Agents:	End-to-end AI chatbots and CRM automation for 5+ business clients — reducing manual response handling by 60% within first month.
Custom OSINT Tool:	Python tool for automated open-source intelligence gathering, aggregation, and structured reporting for security and competitive research.

TECHNICAL SKILLS

ML / AI:	Scikit-learn, XGBoost, TensorFlow, Keras, Hugging Face Transformers, OpenCV, MediaPipe, NLP, Computer Vision, Sentiment Analysis
Data:	Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Excel (Advanced), KPI Dashboard Design, Power BI
Engineering:	HTML, CSS, JavaScript, React, WordPress, WooCommerce, Tailwind CSS, Bootstrap, REST APIs, Git, GitHub, Vercel
Cloud & Tools:	Azure AI Services, Jupyter, VS Code, Figma-to-code, MLOps (model packaging & deployment), CI/CD basics

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Microsoft: Data Visualization, Cyber Security & Data Analysis
- Cisco: Network Security, Ethical Hacking & Network Devices
- NAVTTTC / Corvit Networks: Machine Learning & Deep Learning
- Coursera: Front-End Development & WordPress Development

EDUCATION

BS Information Technology

GC University, Lahore • 2021 – 2025

Intermediate — Pre-Engineering

Standard College, Lahore
